Indian firms have evolved into global players over the past decade. The effects of their expanding overseas investments and acquisitions are being felt across all regions and sectors of the global market, from knowledge-based industries such as information technology, pharmaceuticals, chemicals, and automobiles to the oil and natural gas industries. Yet little is known about these emerging multinationals, their characteristics and competitive strategies, or the implications of their emergence for host countries, both developed and developing. The studies in this volume provide new perspectives on the rise of Indian multinationals, capturing the evolutionary dimensions of their emergence and presenting analyses of their outward foreign direct investments. The Vale Columbia Center on Sustainable International Investment and the Institute for Studies in Industrial Development have brought together leading experts to shed light on this major development. The contributors provide current perspectives from different countries and disciplines such as economics, political science, management, and policy practice to illuminate the characteristics and strategies of emerging Indian multinationals and their impact on world markets.

Table of Contents:

Preface
Ravi Ramamurti
Acknowledgements

I. Introduction. The rise of Indian multinational enterprises: revisiting key issues
Jaya Prakash Pradhan and Karl P. Sauvant

II. In search of the “Indianness” of Indian multinational enterprises: is there anything special about the Indian path to outward foreign direct investment?
Michael W. Hansen

III. Political factors behind the rise of Indian multinational enterprises: an essay in political economy
Jørgen Dige Pedersen

IV. When a great industry globalizes: Indian conglomerates pioneering new trends in industrial globalization
Joël Ruet

V. Acquisition of technologies and multinational enterprise growth in the automotive and the pharmaceutical industries: drivers and strategies
Giovanni Balzé and Silvia Bruschieri

VI. Outward investment by Indian pharmaceutical and software multinational enterprises: are the factors different?
Vinish Kathuria

VII. Indian companies investing in the United States: an inquiry into recent patterns and trends
Nandita Dasgupta

VIII. The emergence of Indian multinational enterprises: an empirical study of the motives, current status, and trends of Indian investment in Germany
Rajnish Tiwari and Cornelius Herstatt

IX. The surge in Indian outbound foreign direct investment to Africa: a new form of South-South cooperation?
Parthapratim Pal
The Rise of Indian Multinationals

Karl P. Sauvant is the Founding Executive Director of the Vale Columbia Center on Sustainable International Investment and Senior Research Scholar and Lecturer in Law at Columbia Law School.

Jaya Prakash Pradhan is Associate Professor at Sardar Patel Institute of Economic & Social Research (SPIESR), Ahmedabad.

‘India is growing a set of world class multinationals. These range from Tata’s ownership of Jaguar to nimble entrepreneurial firms in high tech and knowledge based businesses. This book is an eye opener to those who still think that globalization is driven solely by Western multinationals: in fact emerging economies like India are now full partners in world economic development.’

—Alan M Rugman, Henley Business School, University of Reading.
