Editorial statement

Transnational Corporations (formerly The CTC Reporter) is a refereed journal published three times a year by UNCTAD. In the past, the Programme on Transnational Corporations was carried out by the United Nations Centre on Transnational Corporations (1975–1992) and by the Transnational Corporations and Management Division of the United Nations Department of Economic and Social Development (1992–1993). The basic objective of this journal is to publish articles and research notes that provide insights into the economic, legal, social and cultural impacts of transnational corporations in an increasingly global economy and the policy implications that arise therefrom. It focuses especially on political and economic issues related to transnational corporations. In addition, Transnational Corporations features book reviews. The journal welcomes contributions from the academic community, policymakers and staff members of research institutions and international organizations. Guidelines for contributors are given at the end of this issue.
